# Message from the President of Eduniversal

By providing a serious and reliable reference that reflects the international dimension of the 1,000 Best Business Schools in the world, Eduniversal serves as an essential tool for students, human resource professionals and deans and directors from all over the world.

In an ever-changing rapidly globalizing world, students, professionals and universities are realizing the importance of a quality business education that stretches across borders and teaches future business leaders to think responsibly on an international scale.

For this purpose, **Eduniversal** offers a platform of information for students that enables them to make the right decision regarding their future studies anywhere in 154 countries.

**Eduniversal's** Ratings and Rankings are built on the unique approach that goes beyond the already existing ranking and classification tools by adopting a truly universal and all-encompassing ranking methodology.

After establishing in 2008 the first global map of the 1,000 Best Business Schools in 154 countries ([www.eduniversal-ranking.com](http://www.eduniversal-ranking.com)), **Eduniversal** has decided to highlight

the expertise of those Academic Institutions, and published since 2011, the first Global and Regional Ranking of the 4,000 Best Masters and MBA Programs in 30 Majors worldwide ([www.best-masters.com](http://www.best-masters.com)).

In the context of a globalized and fast-evolving education, **Eduniversal** will continue to provide a wide panorama of perspectives and an in depth view on academic expertise worldwide with the ultimate goal of actively supporting international educational exchanges and encouraging mobility of students and lecturers.

May the upcoming year continue to expand the horizons for all the stakeholders in their pursuit of truly excellent education!

Sincerely,

Martial GUIETTE  
CEO & Founder

# The Eduniversal International Scientific Committee

After months of investigations, the International Scientific Committee composed of 9 independent experts and 2 representatives of SMBG-Eduniversal, gathered on October 15th, 2007 in Paris and published the First Eduniversal Official Selection of the 1,000 Best Business Schools worldwide that covers 97 % of the global population representing 154 countries.

## EASTERN EUROPE

**Dr. Virginijus Kundrotas** is the Dean of Adizes Graduate School (USA) and Vice- President for West Europe and Baltics of Adizes Institute (USA). He was a Founding President of ISM University of Management & Economics (Lithuania) and worked in this position for 9 years. Specialized in business ethics, leadership and change management, he is also President of BMDA (Baltic Management Development Association), vice-president of CEEMAN (Central and East European Management Development Association), and member of the EQUIS accreditation committee.

## NORTH AMERICA

**Dr. Charles Moyer** serves as Dean of the College of Business at the University of Louisville. He is also Dean Emeritus of the Babcock Graduate School of Management at Wake Forest University. Dr. Moyer held the GMAC Insurance Chair in Finance at Wake Forest University and served as a director at King Pharmaceuticals from 2000 to 2011. He served on the Corporate Governance Committee and chaired the Audit Committee. He is also a director of Kypha, LLC and of the Kentucky Seed Capital Fund. He is a member of the Board of Advisors of Capital South Partners, LLC. and a member of the Bi-State Bridge Authority of Kentucky and Indiana. Professor Moyer has provided expert testimony in the area of cost of capital and related issues in more than 60 public utility rate cases.

## WESTERN EUROPE

**Mr. Axel Schumacher** is Associate Dean for International Relations at the Business and Law Schools of the EBS Universität für Wirtschaft und Recht (EBS University of Business and Law) in Oestrich-Winkel and Wiesbaden (Germany). Previously he was Director of International Programmes at WHU, Otto Beisheim School of Management (Germany). He has been working in the field of International Relations for more than 25 years. Over this period he has initiated more than 300 university partnerships in 55 countries around the globe, including 50 dual degree agreements at the undergraduate and graduate levels. He has published research papers and contributed to books on the Concept of Private Universities in Germany and on Strategies of Internationalization for Business Schools.

## FAR EAST ASIA

**Prof. Sung Joo Park** is the former Dean and Vice president of KAIST (Korea Advanced Institute of Science and Technology). He is currently a professor at KAIST Business School. Holding a PhD from Michigan State University, he was also the founding president of AAPBS (Association of Asia-Pacific Business Schools,) and served as a board member of the AACSB and the GFME (Global Foundation for Management Education). Also, he served as an advisor to Samsung Group.

## LATIN AMERICA

**Prof. Edson Luiz Riccio** is a well-established researcher and Associate Professor at the University of São Paulo (Brazil), where he holds many responsibilities, including: president of the international Cooperation Office of the faculty of economics and management (FEA-USP), and director of TECSI, a research laboratory on technology and information systems.

## EURASIA & THE MIDDLE-EAST

**Prof. Nehme Azoury** is Professor and Dean at the Faculty of Business at USEK and holds the position of Secretary General of the Arab Society of Faculties of Business, Economics and Political Science, BEPS, (an affiliate of the Association of Arab Universities, itself founded by the League of Arab States). He is also one of the eight members of the scientific committee of Eduniversal (the representative of the Eurasian region). He lectures in the fields of marketing, strategy and Corporate Governance in several reputed universities namely, The Georges Washington University, which presented him with an appreciation award. As part of his research activities, he has to his credit several publications in internationally renowned scientific journals. To promote research in the Arab world, he is founder and editor of «The Arab Economic & Business Journal». In addition, and beyond his academic and administrative activities, Nehme Azoury is currently Managing-partner at Widein, a consulting firm headquartered in Beirut.

## CENTRAL ASIA

**Prof. Dr. Aneeta Madhok** (PhD, CMC, GPHR) is Managing Director at Open Spaces Consulting and has been the Dean (Center for Human Resources) at S.P. Jain Center of Management, Dubai and Singapore and Dean (School of Business) at NMIMS Deemed University in India. She has contributed to the consulting profession as Chairperson of the International Council of Management Consulting Institutes (ICMCI) (2009-2011) over 49 countries worldwide, and is a global expert on Professional Development and Knowledge in the areas of Management Education, Human Resources and Management Consulting.

## OCEANIA

**Prof. Michael Wood** is currently Professor of Management in the School of Business at Notre Dame and the director of Mike Wood Consulting. He retired as Executive Dean of the Curtin Business School in May 2007, after nearly 8 years in the position. He has had extensive experience in the public and private sectors: he has worked in four Australian universities, held the most senior position in the public sector and profitably conducted his own business.

Professor Wood was formerly chair of the Wood Consulting Group and he has held leading positions in the Western Australian Public Sector. He was Public Service Commissioner from June 1990 to August 1993, Secretary for Local Government from 1984 to 1990, and Chairman of the Local Government Grants Commission from 1983 to 1985.

## AFRICA

**Dr. Sherif Kamel** is founding dean of the School of Business at the American University in Cairo and professor of management information systems. He was director of the Regional IT Institute (1992-01) and managed the training department of the Cabinet of Egypt Information and Decision Support Centre (1987- 92). He holds a PhD in Information Systems from London School of Economics and Political Science, an MBA and a BA in Business Administration from the American University in Cairo. He is a member of the World Bank Knowledge Advisory Commission, a board member of the American Chamber of Commerce in Egypt, the Association of African Business Schools and a number of NGOs supporting entrepreneurial education in Egypt including Injaz (Junior Achievement). He is a founding member of the Internet Society of Egypt. He served as Chairman of the Chevening Association in Egypt (2004-09).

Meeting of the International Scientific Committee in Paris (2007 and 2008), Cape Town (2009), Prague (2010), Cahors (2010), Beirut (2011), Shanghai (2011), Washington (2012), Lima (2012), and Vietnam (2013)

# Methodology

## The Eduniversal Official Selection - Rankings - Ratings

The **Eduniversal Evaluation System (EES)** is a ranking and rating system that encompasses 9 geographical zones, 154 countries, and accounts for the international influence and reputation and the quality of the programs of Business Schools. In addition, the EES checks the national and international accreditations of the schools, memberships in the international academic associations and other international and national ranking results. These criteria are considered by the EES in order to obtain the Official Selection of the Best 1,000 Business Schools Worldwide.

### 1 Methodology for the Official Selection of the best 1,000 Business Schools worldwide

#### The Initial Selection: Objective and Method

##### Objective:

The **Eduniversal** Official Selection is a selection of Business Schools compiled by the **Eduniversal** International Scientific Committee. With the EES, the Committee has established a global mapping system that locates, evaluates and ranks Business Schools in 154 countries.

Because the aim of **Eduniversal** is to inform and to offer useful tools for students, universities and business schools worldwide, the **Eduniversal** methodology divides the world into 9 academic regions:

- Africa
- Western Europe
- Far East Asia
- Latin America
- Eurasia & the Middle East
- Central Asia
- North America
- Oceania
- Eastern Europe

**Eduniversal** defines a Business School's international reputation as its capacity to enhance the prestige of a student – and therefore improve his employment prospects – in his country of study and abroad.

##### Method:

Each country and each region is represented according to a quota method. The number of schools per country is therefore weighted by quantitative and qualitative criteria:

- The quantitative criteria
  - the national expenditure on education per inhabitant;
  - the GDP;
  - the size of the population;
  - the number of students in higher education
- The qualitative criterion
  - the educational environment in the country (established, among others, according to the number of secondary education academic institutions in the country, as well as a historical importance of the national educational tradition).

**Eduniversal's** International Scientific Committee (ISC) is responsible for the Official Selection and is composed of 11 members:

- 9 independent expert members, who are unremunerated, and who represent the 9 academic zones;

- 2 executive members: The General Manager and International Coordinator of SMBG-**Eduniversal**.

All the 9 expert members are experienced and prominent Academic personalities in their geographical zones and beyond. The International Scientific Committee meets:

- to modify the Official Selection every four years, depending on global educational trends and evolution;
- to publish the **Eduniversal** Palmes results each year, based on the internationalization criteria and the Deans vote;
- to publish the results of the annual survey conducted with Directors and Deans of the Business Schools.

All the **Eduniversal** International Scientific Committee (ISC) members usually meet twice a year.

#### Evolution of the Official Selection

##### Frequency & Procedure:

To be in line with the rapid evolution of the world's higher education, **Eduniversal** has implemented a special procedure for

requesting entry into the **Eduniversal** Official Selection.

According to this procedure, besides the global review of the list which occurs every four years, each member of the Scientific Committee can submit proposals to the Committee Board at any time. These proposals can consider Business Schools not part of the Official Selection for entry, and schools part of the selection for removal.

Schools can also apply to the Scientific Committee for entry into the Official Selection of the 1,000 Best Business Schools. Their request will first be examined by the member of the Scientific Committee in the appropriate zone. If the request is approved by the referent member, it will then be submitted for further approval to the rest of the Committee.

##### New Criteria:

We will consider removing from the list those schools that have not received any recommendations (= 0 ‰) during the annual Deans vote, each year.

Country	National Expenditure on education inhabitant	GDP per inhabitant	Population (size in million)	Number of student in Higher Education	Qualitative Criterion	School Quota Results
Tunisia	\$ 605.10	\$ 8,898	9,815,644	26,435		4 Schools
Poland	\$ 773.80	\$14,880	38,625,478	44,7785		12 Schools
Indonesia	\$ 64.80	\$ 4,323	245,452,739	552,660		7 Schools
Mexico	\$ 495	\$ 11,249	107,449,525	339,450		17 Schools
Netherlands	\$ 1,683.7	\$ 35,078	16,318,199	89,341		13 Schools

Figure 1: Example of the data taken into consideration, according to the method of quotas, in the determination of the number of schools per country in the EDUNIVERSAL Official Selection.

### 2 Eduniversal Rankings: Palmes

#### Objective and Method

##### Objective:

The **Eduniversal** Palmes indicate the international reputation level of an academic institution. They are awarded on the basis of the research work carried out by the International Scientific Committee, which compiles the list of internationalization

criteria, together with the assessments made by peers: The Deans vote.

The **Eduniversal** system rates the reputation of a school at national and global levels, and by geographical zone. This helps students in making the most informed decision about where to pursue their further studies.

**Method:**

The subdivision of the Palmes into leagues allows for a horizontal and intercontinental comparison, which is different from the vertical comparison established by most of the international classification systems. This segmentation is presented as a normal probability curve (Fig. 2).

The **Eduniversal** classification by Palmes is based on two essential elements: the internationalization criteria and the Deans vote.

**The Internationalization Criteria:**

- The accreditations obtained by the schools (AACSB, EQUIS, AMBA, State Qualification, etc.);
- The main rankings (Financial Times, Shanghai Jiao Tong, Business Week, Asiaweek, Wall Street Journal, America savings, THES, SMBG, etc.);
- The membership in international academic associations (EFMD, CLADEA, CEEMAN, EMBA, AAPBS, etc.);
- The network of partnerships of Deans and Business Schools at international and local levels;
- The notable studies and websites in the world of education and universities.

These criteria are assessed by the International Scientific Committee and calculated in the following way:

- Accreditation: maximum 1.55 Points
- Membership in International Associations: maximum 1 Point
- Participation in rankings: international, regional and national: maximum 1.45 Points
- Notable studies and websites in the world of education and universities: maximum 0.25 Points

During the 2011 ICS Meeting in Lebanon, the method of awarding points has been updated and now gives more weight to the Deans vote.

**The Deans Vote:**

Each Dean from the schools on the list of the 1,000 Best Business Schools can participate in the annual survey that asks the question: «Which of the following schools would you recommend to a student who is looking to study in this country?» (page 9).

This vote is converted into a recommendation rate that students can use to evaluate and compare the academic institutions.

This rating is assessed by the International Scientific Committee and its weight is calculated in the following way: 1 to 9 points according to the annual Deans vote result.

**Evolution**

**Frequency:**

The assessment is concluded every year and the results and Palmes Leagues are announced at the Gala Awards Ceremony during that year's Eduniversal World Convention.

**League Changes:**

- **Upwards:** The expert members study the proposals put forward by one of the executive members of the International Scientific Committee on the basis of the results of the Deans vote during the preceding year and/or on the basis of important changes in the business school considered. Otherwise, the upward shift can be considered as per request of the school that demands to change higher league. This request is required in form of an application.
- **Downwards:** The expert members study the relegation proposals put forward by one of the executive members of the International Scientific Committee on the basis of the results of the Deans' vote during the preceding year.

**3 Eduniversal Ratings: Deans Vote**

**Objective and Method**

**Objective:**

The Deans Vote is the element that distinguishes **Eduniversal's** Ranking and Rating methodology. The aim of this Rating is to add a component of peer assessment. Schools in the Official Selection are evaluated and recommended by their academic peers from all around the world.

**Method:**

Country by country, each Dean or Director of the 1,000 best academic institutions assesses the other schools in the selection. They can recommend only 50% of the academic institutions in each country. However, it is not mandatory for the Deans to submit a vote for all geographical zones. Furthermore, it should be noted that these votes are private and are treated with utmost confidentiality.

Each year, the ranking of the business schools selected will change according to the Deans Vote. This vote is expressed as "Recommendations Rate" on the website:

[www.eduniversal-deans-vote.com](http://www.eduniversal-deans-vote.com)

**The influence of the Deans vote on future Official Selections and the annual Palmes distinctions**

The results of the votes made in the years following the publication of the Official Selection will be weighted and will have a direct influence on the classification of the schools each year.

**A complete absence of Deans Votes for an institution can lead to its exclusion from the list:**

If an academic institution has received no votes during the four year Official Selection period, it may be penalized, or may even lose its place in the selection.

**The case of an insufficient number of votes to maintain its level in the Palmes league:**

In the case that a school, placed last in its league, receives a very small number of votes in comparison with other universities in the same league, the Scientific Committee must consider relegating it, particularly in the two following circumstances:

- A school from the lower league has received an exceptionally large number of votes compared with the school concerned by the relegation. In this case, the former can place before the Scientific Committee a legitimate request for promotion to the upper league. The Scientific Committee will assess the file, taking into consideration all the criteria for the Palmes League classification.
- International or national "pressure" at the lower level league in which the school is being relegated. This "pressure" would be expressed by a large enough number of requests submitted before the Scientific Committee, appealing for a promotion to the league above.

**The case of a number of votes far exceeding those in its league:**

In the case that a school, placed first in its league, receives a very large number of votes compared to the other universities in its league, and if it places a legitimate request for promotion to the league above, the Scientific Committee must consider its promotion to the league above, especially in two following circumstances:

- A school in the league above has received a much smaller number of votes compared with the other universities in its league
- Absence of international or national « pressure » at the level of the league concerned. This « pressure » would be expressed by a large enough number of requests submitted before the Scientific Committee, appealing for a promotion to the league above.

Eduniversal has developed a unique Ranking and Rating system which evaluates Institutions of Higher Education worldwide. EES is unique due to its universality and because it is based on the expertise and recommendation of actors in the academic field. Hence, the Rating and Ranking results produced by EES are useful for students, universities, companies and other stakeholders in the field of Higher Education.

100 schools in the 5 Palmes league		Universal Business School
200 schools in the 4 Palmes league		Top Business School
400 schools in the 3 Palmes league		Excellent Business School
200 schools in the 2 Palmes league		Good Business School
100 schools in the 1 Palme league		Local Reference

Figure 2: Subdivision of the Palmes

**Survey Process**

The survey conducted with the Deans of the 1,000 Best Business Schools takes place every year for a 3-month period (November - January), during which the Deans of the institutions selected by Eduniversal are invited to answer to the questionnaire.

# International Rankings, main International Accreditations and Academic Associations considered in the **Eduniversal** Official Selection.

# The Eduniversal World Convention

After Paris in 2008, Cape Town in 2009, Prague in 2010, Shanghai in 2011, Lima in 2012, and Bangalore in 2013, the 7<sup>th</sup> Eduniversal World Convention will be held in Eurasia and Middle East, in October 2014.

This annual meeting for the best 1000 Business Schools worldwide from the Eduniversal Official Selection gathered strategic representatives from these institutions. Eduniversal's conventions have a particular focus in the business education sector

The Eduniversal World Convention is meant to be the annual meeting point of experiences and mutual commitments providing attendees with answers to the challenges related to academic issues.

The Eduniversal World Convention is the best opportunity to strengthen a global federation of the best schools and universities in the area of business and management from all the regions of the world. It is also the occasion to disclose the Deans vote and the new Eduniversal Ranking by country.

Standing out from the other rankings, Eduniversal's system is notably based on peer assessment. 1,000 deans and business school directors from more than 150 countries are asked to vote and give their recommendations on the Eduniversal Official Selection of the 1000 Best Business Schools.

The Eduniversal Gala Awards Ceremony rewards the three best Business Schools from the nine Eduniversal geographical zones according to the Deans recommendations in front of an international expert audience and Media from many foreign countries.

# The annual Eduniversal Deans' Vote Survey

The Deans Vote is the criterion that distinguishes Eduniversal's Ranking and Rating methodology of the Best 1,000 Business Schools from most of the international classification systems.

The Business Schools selected in the Eduniversal Official Selection are evaluated and recommended by their academic Peers from 154 countries.

The aim of this Rating is to add a component of Peers assessment considered as one of the numerous qualitative and quantitative criteria used in the Eduniversal's methodology.

On behalf of their respective academic institutions, each Dean is asked to highlight among the 999 other institutions, the one(s) they would suggest to students, planning to study abroad and answer the question : "What are the business schools you would recommend to a student who is looking to study in this country?"

The Deans' Votes generate the schools' recommendation rate which results are disclosed during the Eduniversal World Convention with the annual ratings and rankings by country and published on [www.eduniversal-ranking.com](http://www.eduniversal-ranking.com)

## Key facts about the 2013 Eduniversal Deans' Vote Results :

- ▶ TOP 3 geographic zones with the main school's participation rate in 2013
1. Eastern Europe : 84%
  2. Western Europe : 69%
  3. Latin America : 61%

Western Europe is the zone which gained the highest number of contestants this year.

**60.10%** of the Deans from the 1,000 best Business Schools worldwide have participated in the Deans'Vote.

Participation rate per Palmes League

5 palmes	4 palmes	3 palmes	2 palmes	1 palme
61%	64%	62%	59%	40%

## Voting process on [www.eduniversal-deans-vote.com](http://www.eduniversal-deans-vote.com) :

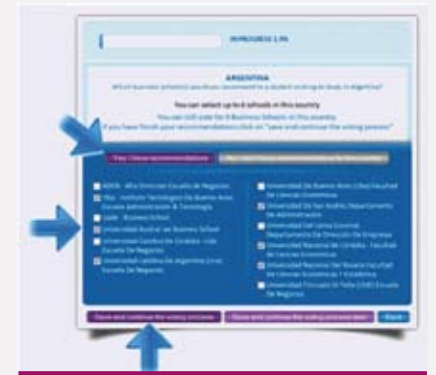

Once a year, the deans & directors of the 1,000 Business Schools included in the official selection are invited to participate in the Eduniversal Deans Vote. The vote starts every year in November and each dean/director receives his login information granting access to the voting platform

### A few simple rules to know on beforehand:

- The dean/ director is the only person allowed to report the votes on behalf of his/her Institution with his personal access.
- Countries are presented in alphabetical order.
- Your country will be the last one in the list (after Zimbabwe).
- You can select up to 50% of the institutions for each country.
- If you don't know or if you don't want to recommend any school in a country, select "no, I don't have recommendation for this country" and the next country will appear on the screen.
- Your own Institution will not appear in the list of your country, as the Dean is not allowed to vote for his own Institution.
- Your votes are considered once the 154 countries of the Eduniversal System have been examined.

Information/requests about the Deans' Vote, please contact : [international.coordinator@eduniversal.com](mailto:international.coordinator@eduniversal.com)

**IMPORTANT REMINDER :** The 2013-14 Eduniversal Deans' Vote Survey will start in November 2013.

## [www.eduniversal-ranking.com](http://www.eduniversal-ranking.com) website dedicated for the ranking of the 1,000 Best Business Schools worldwide

Our theme: **EDUCATION** / Our strength: **UNIVERSALITY**

This platform describes the best academic opportunities for the students zone by zone (Africa, Central Asia, Eastern Europe, Eurasia & Middle East, Far East Asia, Latin America, North America, Oceania, Western Europe), via a range of institutions included in the Official Selection of the Best Business Schools with different levels of reputation reflected with the Palmes together with the assessments made by Peers (Deans Vote Survey) in 154 countries.

Every year, the annual ratings and rankings by country are disclosed during the Eduniversal World Convention and published on [www.eduniversal-ranking.com](http://www.eduniversal-ranking.com)

The subdivision of the Palmes into leagues allows for a horizontal and intercontinental comparison, which is different from the vertical comparison established by most of the international classification systems.

Each of the 1000 Institutions selected in the Eduniversal Official Selection has a dedicated space on [www.eduniversal-ranking.com](http://www.eduniversal-ranking.com) where they can personalized their profile and published information.

# The Eduniversal Evaluation System (EES)

Since 2002 in France, and 2008 on the international scale, the Eduniversal Evaluation System (EES) has implemented innovative rankings on the academic sector with the main purpose to highlight the institutions' expertise to inform and advice students all over the world.
